

# Destruction of Tax Paid Product for Producers

To receive the tax reduction of destroyed/spoiled/bad beer, wine, or spirits over 100 gallons, the Nebraska State Patrol MUST witness the destruction and provide the licensee and the NLCC with form 756 showing proof of destruction. This claim for tax reduction must be made within 6 months of the date of destruction.

Without this form, the tax relief cannot be given.

If there has been an insurance claim for product destroyed, no tax relief will be given.
