### **Advisory Regarding Inventory Management**

February 25, 2016

The Nebraska Liquor Control Commission has received questions regarding inventory management by retail liquor licensees and requests by retail licensees to wholesalers to issue credit for returned product.

Please be advised that if the retailer conducts the ordering for the retail establishment and as a result places an incorrect order – the wholesaler cannot issue credit to remedy the retailer's error/misorder.

In addition, the Commission also warns that any retailer that intentionally allows product to go out of code in order to receive a credit will be asked to appear before the Commission at a Show Case Hearing.

In sum, if the wholesaler places the order a credit may be issued if consistent with Nebraska's Liquor Control Act and controlling rules and regulations. If the retailer places the order, a credit may not be given to the retailer for the misorder/retailer error.
