To: Wholesale and Manufacturing Licensees

From: Jerry VanAckeren, NE Liquor Control Commission

Date: September 3, 2015

Subject: Advisory

It has come to the attention of the Nebraska Liquor Control Commission that wholesale licensees are filling test tube containers from original packages for sampling purposes and distributing to retail licensees. Furthermore, these test tubes (partial or full) are being left with the retail licensees at least on some occasions. Please be advised this is not an allowable practice. Also for sampling purposes any unused samples in original containers shall not be left with the retailer.
